To Anyone Who Needs a Great Bookkeeper,

I am happy to provide a recommendation for Tresa Vogstad and Books Matter Ltd.

Tresa is a lifesaver when it comes to bookkeeping. Not only do you get everything you could expect from a dedicated professional bookkeeper, "attention to detail", "subject matter expert", "expert at Quickbooks", "timely", "accurate", "personable", and "thorough", but you also get someone who can and does explain tax implications, bookkeeping jargon and business accounting.

By hiring Tresa, it allows you to concentrate on your business and not worry about your bookkeeping.

I wholeheartedly recommend Tresa and her company Books Matter Ltd. for any bookkeeping services.

Sincerely,

Chris McCullough

Tresa Vogstad has been my bookkeeper for my two companies, 1312597 Alberta Ltd. and 1312588 Alberta Ltd. since early in 2008. Both companies are family owned and both are quite unique and different from each other – one is a consulting business and one is a retail business service centre business.

It is both my personal and professional honor to provide a reference for Tresa. It is without hesitation that I can say that Tresa is highly efficient at all that she does. She is extremely knowledgeable and has a network of accounting professionals to call upon when necessary. Tresa also has a keen sense of urgency and that, coupled with attention to detail, she always gets the job done in a timely fashion to meet tax and reporting deadlines. Tresa provides quality service at an affordable and reasonable rate. Running a small business has many dimensions and I feel very appreciative and thankful to have Tresa on my side so I can devote my time to building my business.

Sherril Kelly, Business owner
